JOURNAL CHANGES AUTHORIZED

The new Constitution of the Council which was adopted in Detroit provides for reorganization of the Journal staff. The Executive Committee of the Board is authorized to appoint an editorial board for the Journal. This board will serve as a group of technical advisors to the Editor and give assistance in the review and preparation of manuscripts for publication.

A number of suggestions for improving the Journal were made at the Detroit Convention. It is anticipated that the number of changes in the present organization of the Journal will be made beginning with the October issue.

15,000 SENIORS TAKING SCIENCE TALENT SEARCH EXAM

In high schools all over the nation, more than 15,000 senior boys and girls this week will tackle a rigorous, three-hour examination—first step of participation in the fifth annual Science Talent Search, which will lead to careers in science for a gifted 40 who will compete for scholarships to help them develop their scientific abilities.

The examinations, which must be completed by December 27, are being administered by each school's officials, who will also supply for Science Talent Search judges complete personal and scholastic data, and forward entrants' 1,000-word original essay on the subject "My Scientific Project." There still is ample time for students to enter the Search.

Successful completion of the exam is part of the qualification for selection of 40 finalists who will be taken to Washington next March to attend the five-day Science Talent Institute, where they will enter the final competition for $11,000 in Westinghouse Science Scholarships.
